Output:	2,500 W, 4 dimmable settings
Functions:	dimmer, digital timer, thermostat
Operation:	device, remote control
Thermostat:	10-40 °C room temperature
Dimensions HxWxD:	18 x 87 x 10.5 cm
Weight:	2.5 kg
Heating area:	8-14 m ² outdoors, up to 30 m ² indoors
IP protection class:	IP34 indoors + outdoors (splashing water)
Types of protection:	tip protection

StandLine 25R

StandLine 25R – free-standing carbon heater

Mobile carbon warmth for every occasion.

This powerful free-standing infrared heater featuring the latest carbon-bar technology is particularly efficient. It is highly flexible and can be moved about freely thanks to its pedestal. It can be taken anywhere you need heat – even when you go camping. With remote control, timer function and tip protection. The impressive heating powerhouse from VASNER.

With its 2,500 watts of power and four heating intervals that can be adjusted by remote control, the StandLine 25R delivers the right amount of heat just where it's needed for any given occasion. The reflector's broad heat distribution ensures that its infrared heat can cover an entire furniture suite. Enjoy the warmth from head to toe!

This top-notch heater from VASNER is now also available in white and silver. The right look for every terrace.

Panora

Panora – infrared heaters with personalized photos

Panora

Turn your favourite photo into a source of warmth: as a wall heater.

To the casual observer, it looks like a large, gorgeous photo on the wall. But in fact, it's a cutting-edge infrared heater. VASNER produces customised photo heaters with razor-sharp image quality. There are 3 different frames available (although the heater is also available without a frame), and 3 glass surfaces. This product leaves nothing to be desired. Beautify your living room, bathroom or conservatory. 100% Made in Germany.

Product details:

Model:	Panora
Output:	400/500/600/700/900 watts
Photo print:	high-resolution premium print // photos, graphics
Glass options:	gloss, semi-gloss, matte
Frame options:	aluminium, titanium, chrome, no frame
Dimensions HxWxD:	60 x 70 x 4 / 60 x 90 x 4 / 60 x 110 x 4 / 60 x 120 x 4 cm / 60 x 140 x 4 cm
IP protection class:	IP-X4 splashing water (also for bathrooms + damp rooms)
Types of protection:	overheating protection, surge protection, 3 safety switches, safety glass

Enjoy more warmth.

Kenvi

Konvi – hybrid infrared heater

Konvi

Brings together the best technology from two heating sectors.

A unique combination of infrared heating and metal convection heating. For significantly higher heat efficiency and faster air-room warmth than by using an infrared heater alone. Also ideal for bathrooms, hobby rooms and workshops. The Konvi series is the first infrared heater with an integrated thermostat.

Product details:

Model:	Konvi
Output:	600 / 1,000 / 1,200 watts
Functions:	infinitely adjustable thermostat
Surface temp.:	50-105 °C
Radiation type:	infrared C radiation
Technology:	German infrared carbon fibre technology
Radiation area/angle:	up to 3.5 m, up to 170°
Room size:	up to 24 m ² with a single heater
Material:	metal, semi-gloss white paint
Dimensions HxWxD:	60 x 60 x 4 / 60 x 100 x 4 / 60 x 140 x 4 cm
IP protection class:	IP20 indoors (no protection against water)
Types of protection:	overheating protection, surge protection, 2-4 safety switches

Simply saves space.

Kenvi VE

Konvi VE – vertical hybrid infrared heater

Konvi VE

An efficient hybrid heater in a space-saving model.

With its new vertical design, this efficient hybrid heater can now be mounted on narrow wall surfaces in rooms with very little space. Like the entire Konvi series, the VE model is also equipped with an integrated thermostat. The Konvi VE: for maximum flexibility.

Product details:

Model:	Konvi VE
Output:	1,000 watts
Functions:	infinitely adjustable thermostat
Surface temp.:	50-105 °C
Radiation type:	infrared C radiation
Technology:	German infrared carbon fibre technology
Radiation area/angle:	up to 3.5 m, up to 170°
Room size:	up to 24 m ² with a single heater
Material:	metal, semi-gloss white paint
Dimensions HxWxD:	100 x 60 x 4 cm
IP protection class:	IP20 indoors (no protection against water)
Types of protection:	overheating protection, surge protection, 2-4 safety switches

A real plus in warmth and design.

Konvi Plus

Konvi Plus – hybrid infrared heater with a rounded design

Konvi Plus

Combines the best hybrid technology with the best design.

A powerful designer hybrid heater made of metal with rounded corners. The latest infrared technology combined with proven convection technology. For significantly higher heat efficiency and faster air-room warmth. Also ideal for bathrooms, hobby rooms and workshops. With an integrated thermostat (naturally!). A visually stunning gem.

Product details:

Model:	Konvi Plus
Output:	600 / 1,000 / 1,200 watts
Functions:	infinitely adjustable thermostat
Surface temp.:	50-105 °C
Radiation type:	infrared C radiation
Technology:	German infrared carbon fibre technology
Radiation area/angle:	up to 3.5 m, up to 170°
Room size:	up to 24 m ² with a single heater
Material:	metal, semi-gloss white paint
Dimensions HxWxD:	60 x 60 x 4 / 60 x 100 x 4 / 60 x 140 x 4 cm
IP protection class:	IP20 indoors (no protection against water)
Types of protection:	overheating protection, surge protection, 2-4 safety switches

Minimalistic beauty.

Citara M

Citara M – metal infrared heating

Satin-finish infrared heater for intense warmth.

With a soft satin-finish structure and slim 25-mm depth, the Citara M is surprisingly powerful. Despite its slender profile, special insulation has been incorporated into the heater to increase efficiency. Safety brackets for walls and ceilings, together with German carbon infrared technology, make this heater uniquely efficient. Classy, discreet and powerful.

Product details:

Model:	Citara Metal
Output:	450 / 650 / 900 watts
Functions:	secure wall and ceiling mounting
Surface temp.:	85-95 °C
Radiation type:	infrared C radiation
Technology:	German infrared carbon fibre technology
Radiation area/angle:	up to 3.5 m, up to 170°
Room size:	up to 18 m ² with a single heater
Material:	metal, semi-gloss white paint
Dimensions HxWxD:	60 x 60 x 2.5 / 60 x 90 x 2.5 / 60 x 120 x 2.5 cm
IP protection class:	IP44 indoors (protection against splashing water)
Types of protection:	overheating protection, surge protection, 2-4 safety switches

Citara Metal

A pure plus in design.

Citara M Plus

Citara M Plus – rounded designer metal infrared heater

Citara Metal
Plus

The complete package: stunning design, impressive performance.

A powerful infrared heater for true lovers of the aesthetic. Uniquely curved corners and an extra-flat body with special insulation and impressive efficiency. That's what makes the Plus series so special. It also offers all the benefits of the Citara M series: Safety brackets for walls and ceilings in combination with German carbon infrared technology. A real plus in design and quality.

Product details:

Model:	Citara Metal Plus
Output:	450 / 650 / 900 watts
Functions:	secure wall and ceiling mounting
Surface temp.:	85-95 °C
Radiation type:	infrared C radiation
Technology:	German infrared carbon fibre technology

Juica series

Juica – slow juicer

Juica

The latest slow-juicer technology for even more vitamins.

The particularly gentle and slow juicing process ensures more juice is squeezed, whilst extracting more vitamins and minerals. This is the latest healthy-eating trend to sweep across the USA and Scandinavia. Squeezes juices of different viscosities and produces tasty fruit bars. Healthy eating just got healthier.

Tofu Box Mould

Superfruits. A naturally delicious source of energy.

Discover superfruits: a natural source of energy. Indigenous peoples have used and appreciated them for millennia. Now you can, too!

Wheatgrass smoothie Extra energy, extra natural

Wheatgrass is the ultimate superfood! An energy-packed smoothie that delivers an extra dose of freshness. With rapid regeneration properties.

- Peel the oranges, lime and banana beforehand.
- Put everything in the juicer and press slowly.

Ingredients:
2 teaspoons wheatgrass
2 oranges
1 banana
1 lime
1 kiwi

Red beet smoothie A delicious energy boost

A uniquely delectable flavour with serious energy potential. For true gourmets.

- Press the red beets and orange slowly.
- Then mix with the rest of the ingredients.

Ingredients:
3 red beets
250 g yoghurt
150 ml sea buckthorn nectar
1 orange

Pear apple maqui smoothie with coconut Relax and recharge

Mellow flavour, perfect for helping you recharge your batteries.

- Press the pears, apples, carrots, and mango slowly
- Then stir in the maqui powder.
- Garnish with grated coconut.

Ingredients:
3 pears
2 apples
2 carrots
1 mango
2 teaspoons maqui powder
1 teaspoon grated coconut
